

Emergency Services Insurance LLC

Invites you to attend the following Emergency Service Training Program

Emergency Services UTV/ATV Safety Instructor Level - TTT Course

This program is designed to review skills and provide refresher training for ESOs that use these specialty vehicles. Utility Terrain vehicles (UTVs) and All-Terrain vehicles (ATVs) continue to gain wider acceptance and use in the emergency service. They have given organizations a less physically demanding, more rapid and effective response to emergency incidents and special events. Adding UTVs and ATVs to the ESO's fleet provides a great benefit but also can present safety issues if those using the vehicle have not been properly trained in the operations and maintenance of these types of vehicles. Manufacturers and retailers, have, and continue to stress the importance of proper training for the safe operation of their products. Training in the use of these vehicles should be part of the organizations commitment to safety. The MFFTC has authorized the following Instructor Levels to teach this course: Instructor I & II, previous Certified Instructors

May 2, 2018

6:00pm - 10:00pm

LOCATION:

**Edwardsburg Fire Department
69910 M-62, Edwardsburg, MI 49112**
